zip?dl=1&alias=p A: .rar file is for Windows 7, I suggest you use 7zip or WinZip. Windows 7 Software Shop Q: Call Javascript inside dynamic HTML I have this page: I want to call javascript which changes the ID of footerText div. I have a script which looks like: `$(document).ready(function () { $("#pagination").on("click", "a", function () { $(this).closest("#content").find("#footerText").find("#pagination").hide(); $(this).closest("#content").find("#footerText").find("#pagination").show(); $(this).closest("#footerText").find("#pagination").html(' 82157476af`
